BEARS ATTEMPT A SALLY

EFFORTS TO BREAK THE WHOLE MARKET WERE FUTILE.

Continued Weakness of Wheat in Face of Well-defined Information of Poor Crops in Russia and Eastern Europe Has Effected—On the Market—Strength in Railroads.

New York, June 20.—Today's advance in prices after an early weakness was no more conclusive of a settled condition of the speculative market and of the future course of the stock market than was yesterday's decline. There was a brief and spasmodic period of fluctuation in Federal Steel and Wire, and the bear party took advantage of this to drive a drive against the whole market. But the brief duration of the decline and the firm resistance offered by prices at the low point warned the bears of the futility of an effort to break the whole market. The bear party, however, continued their efforts by buying stocks at the low level. There was some organized buying of the Federal Steel and Wire, and the bear party took advantage of this to drive a drive against the whole market. But the brief duration of the decline and the firm resistance offered by prices at the low point warned the bears of the futility of an effort to break the whole market.

The action of the wheat market prompted some buying of the grain. The continued weakness of wheat in face of well-defined information of poor crops in Russia and Eastern Europe made the conclusion unavoidable that supplies of American wheat were believed to be forthcoming by those who are best able to judge. Very little, however, was done by the market. The wheat market continued to be quiet, and trading could not be said to represent anything but a continuation of the short covering of yesterday's bears. The opening in both Federal Steel and Wire was wide, 4.00 and 4.10 of the former selling at a drop of 1/2 to 3/4 points and 4.00 and 4.10 of the latter selling at a drop of 1/2 to 3/4 points. The wheat market continued to be quiet, and trading could not be said to represent anything but a continuation of the short covering of yesterday's bears.
